PROFILE

I am a dedicated Fullstack Web Developer with a passion for creating dynamic, responsive web applications. My expertise spans both front-end and back-end technologies, ensuring seamless user experiences through intuitive UI/UX design.

With a solid foundation in coding and a keen eye for design, I excel at transforming client ideas into functional solutions. My background also includes training in textile and fashion technology, enhancing my creative problem-solving skills in diverse projects.

WORK EXPERIENCE

Fullstack web developer at evangadi

developed both front and back end projects 2024 - PRESENT

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, and frameworks like React and Node.js.
- Collaborated with cross-functional teams to design user-friendly interfaces, enhancing overall user experience and engagement.
- Implemented RESTful APIs and integrated third-party services, improving application functionality and performance.

wolkite university

Textile and Fashion Technology lecturer/Researcher 2020- 2024

- Assisted in the development of sustainable textile designs, focusing on eco-friendly materials and production techniques.
- Conducted research on emerging fashion trends and material science to inform design decisions and product development.
- Participated in fabric testing and analysis, contributing to improvements in durability and performance.

Wolkite university

2015-2016

Graphic and Fashion Design lecturer

- Utilized software such as Adobe Photoshop and Illustrator to produce high-quality designs that meet client expectations and project deadlines
- Instructed students in advanced Computer-Aided Design (CAD) software, empowering them to create detailed technical drawings and fashion illustrations.
- Organized workshops and guest lectures with industry professionals to provide students with real-world insights and networking opportunities.
